### **EQUIPMENT DISPOSITION**

Northern Local School District in Perry County has asked for the Board's permission in disposing of an oil burning furnace. The furnace was purchased with district funds in 1995 for \$5,950.00. It is no longer working. They are going to buy a new one and are requesting permission to use the old one as a trade-in. Carol advised the Board that per the district's equipment policy, as the original purchase price was less than \$10,000 and it is 13 years old there is no monetary reimbursement requirement by the district. Judy Shupe asked the Perry County Commissioners why they had not approved funding the purchase of a new furnace. Thad Cooperrider stated that they did not want to set a precedent by funding an oil burning furnace for this school district when they would not have the financial means to do so for all the other school districts in the county. Thad Cooperrider made a motion to approve the request for disposal by means of trade-in with no monetary reimbursement to the district. Larry Stahl seconded the motion. The motion carried without opposition.
